### FETTO Junior 70 tips & tricks:

It may take some time to get a grip about them possibilities in **FETTO Junior 70**. We encourage you to try several different combinations of the outboard control settings as each will impart its own unique character on your tone. Also, try to adjust the volume control of your guitar and you will see how flexible, responsive, musical and “real” this handy plexi distortion hydrogen love bomb is. Our wish is that you'll get a GREAT ol' **FETTO Junior 70** experience!

Every pedal is 100% designed, made, tested and carefully adjusted by the original designer in Sweden. **Note 1:** If you happen to remove the bottom plate and find some controls inside, remember these parts are *not* meant to be regularly adjusted by the user—because of functional/warranty reasons. More information about **FETTO Junior 70** and collaborating products is available at [www.himmelstrutz.com](http://www.himmelstrutz.com).

**Note 2:** if you play loud, use ear protection! It's easy to forget when the sound and feel is wonderful but in the long run a quite bad idea!

Good luck!
